

SPLITTERS & SPREADERS

3/8" COUPLERS

700 bar/10,000 psi

IJ100 HYDRAULIC HOSE ASSEMBLY (AMERICAS & ASIA)

No. 9764 – Hose assembly consisting of 9767 (6' hose), 1/4" I.D. polyurethane with 9798 hose half coupler and 9800 dust cap assembly. Complies to MHI Standard IJ100 (2:1 Burst).

CE HYDRAULIC HOSE ASSEMBLY (EUROPE)

No. 9764E – Hose assembly consisting of 9767E (2m hose), 6mm I.D. polyurethane with 9798 hose half coupler and 9800 dust cap assembly. Complies to CE Standards (4:1 Burst over Nominal pressure ratio).

Note: Not for EHN Nut Splitter. For topside EHN, see page 102. For Subsea EHN, see page 104.

<p>9040 9040E</p>		<p>Gauge for 700 bar; 10,000 psi hand pumps. 9040 has psi as primary unit. 9040E has bar as primary unit.</p>
<p>9042DG</p>		<p>700 bar, 10,000 psi gauge for torque wrench applications. Custom scale enables the following units to be displayed: lb-ft or Nm</p>

<p>9670</p>		<p>Tee adapter. For installing gauge between pump and hose coupling. Has 1/4" and 3/8" NPTF female and 3/8" NPTF male ports.</p>
<p>9799</p>		<p>Optional metal dust cap (hose half)</p>
<p>9797</p>		<p>Optional metal dust cap (pump/tool half)</p>
<p>9798 (male coupler)</p>		<p>Male (hose) half coupler (with No. 9800 dust cap). 3/8" NPTF.</p>
<p>9796 (female coupler)</p>		<p>Female (pump/tool) half coupler (with No. 9800 dust cap). 3/8" NPTF.</p>
<p>9800</p>		<p>Dust cap for male or female 3/8" NPTF half couplers.</p>

See page 114 for gauge calibration services.
